Mr. Platt said something about Joe Leiter being "exiled in Chicago," attending to the business of the estate, while his family loitered in Washington, or froliced on the farm near Boston.

Then one year, it was 1918, Joseph Leiter turned his pockets inside out, counted up his vouchers, and decided that his traveling expenses had been "about 11,500 odd dollars." So the trustees decreed him a \$1,000 a menth expense account.

The Countess of Suffolk in her bill had objected to Joe Leiter's sale of the Lake Geneva estate. Attorney Platt pointed out that at the time of the saile "there were no autos! everybody wanted to sell: nobody wanted to buy, and Lady Marguerite herself, in a letter, had called the property an 'exira drag on the estate' and had recommended a sale of ft."

And finally there was the polished, comradely Tom Nash, who pictured Anselmi and Scalisi as victims of circumstance. Nash softly rebuked the perjury, as he called it, of the state's Steady advances toward perfection reading writing arithmetic, and

witnesses.

With these three—O'Donnell's oratory, Ahern's law, and Nash's review of the evidence—the defense declared confidently they expect an acquittal.

In the gangsters' first trial for the murder of Policeman Olson the jury decided fourteen years' imprisonment for the two men would atone their crime.

CHICAGO'S LIBRARY.

It has been authoritatively said that the men and women of today stand intellectually no taller than their ancestors of many thousands of years ago. They merely stand on the shoulders of generations that have gone before. Modern intellect profits by the storehouse of knowledge garnered by the past. It reaches higher because it stands upon a stepladder of centuries.

The greatest single force for the transmission of this collected heritage is the printed book. Education without books reverts to that elemental process whereby knowledge and tradition passed from generation to generation by word of mouth. rallway consolidation should have been one of dis-Lifetimes of endeavor, compressed into black sym- appointment. PLEASANT PEOPLE

They belp morning shoppers to start the day right, and afternoon shoppers to end it happily

ERHAPS "Store Manners" are not as important as ballroom manners or table manners, but we think they are. The great merchants who have developed their businesses into INSTITUTIONS have ever held to this same doctrine. Greatness is rarer than bigness—in business.

The hundreds of people in the O-G stores, from the owners to the parcel-girls, are your hosts when you visit an O-G Booterie, as truly as though you were a guest in their own homes, or elsewhere.

AS A GUEST you expect courtesy without stiff formality, thoughtful anticipation of your wants without impertinent suggestions, accommodation of your tastes without argument and, when you leave, a pleasant echo of the "welcome" that warmed you on arrival.

O-G STORE PEOPLE are always pleasant; you discover that first. Then you learn that they know their business—and do not try to tell you yours. Later you awaken to the many superiorities of the merchandise itself—be it O-G shoes or O-G hose. All three points "stay put" in your memory—and

WE ARE GLAD to wait for your appreciation until it springs from your own experience—because IT IS what we know WE have put into O-G shoes that assures you complete and lasting satisfaction with what YOU put into them.

MAY WE have the honor of a First Call upon our resources. (Including a sampling of the Store Manners of this House.) Try any O-G Shop, any hour of any day.

New principles in radio developed by

EAITHFUL reproduction of tone is the most important element in the enjoyment of radio. Now by the development of new Radiotrons, together with loudspeakers built on an entirely new principle—and by the accoustical synchronization of all elements from the broadcasting station to the receiver-RCA has brought quality of tone to a perfection never before possible. The new speakers are capable of tremendous volume without distortion and achieve faithful reproduction in every range of tone, high or low.

Some of the new sets can be operated directly from the 110 volt, 60 cycle A. C. lighting circuit, without batteries. They are attached as easily as your vacuum cleaner or electric lamp.

The other factors of perfect radio reception-selectivity, distance range, and simplicity of operationare carried to a still further degree. Tuning is easy and exact with the new Unicontrol system. New and even higher standards of performance are achieved by the new Radiolas. Come to see them.

The camels are coming

-in fact they're here! Now-and for the very first time, you are able to have that camel's hair overcoat, in the color and pattern you can wear-100% virgin camel's hair cloth, light and soft as down, cool for warm days, warm for cold days, the priceless year'round overcoat material—at about the price of a good topcoat.

EDOUIN—that's the name Stein-Bloch has given this wonderful camel's hair fabric. Every fibre of it from the big, two-hump Bactrian Camel that roams from the desert heat to the Himalayan snows, cool in the blazing sun, warm in the blizzard. And that's you, in one of these Bedouin Imperial Camel's Hair coats!

Your Color—and Your Model

You may have thought that a camel's hair coat could be had only in the so-called "natural" tan or fawn color. Far from the fact, in these Bedouins. You will find in this showing, rich blues, soft greys, smart oxford mixtures and modest plaids—as well as the more familiar fawn shades.

The variety of models is equally surprising. Many people think of a camel's hair coat as merely a sport or "polo" coat. Not so. These Bedouins are offered in single and double breasted models, with or without belttailored as only Stein-Bloch can.

Imperial Camel's Hair—100% pure camel's hair, obtainable in Stein-Bloch coats only, makes the world's finest all-year, all-purpose coat. No other fabric provides such perfect insulation against the penetration of both heat and cold; no other drapes so freely and gracefully, or retains its shape so well.

Words can't picture this fabric for you. See it, feel it, crush its silky softness in your hands-heft its feathery lightness. Then slip into a Bedouin coat. And if you can slip out of it without owning it you're a marvel. It takes three full-grown camels to produce the hair to make a Bedouin coat.

KISSEL CUSTOM BUILT

A Coupe for Winter A Roadster for Summer

Here is the car of the year—the new All-Year Coupe Roadster.

Salesmen, business men, doctors, and the younger generation, demanding a smart car of their own, have found in this new Kissel-just the features which they hoped somebody would some day build into a car.

It possesses the style that only a Kissel can have. It has the pick-up, power and speed that only the Kissel Advanced Engineered Motor can give. There is complete restfulness and comfort in the deep-cushioned upholstery. With the top up it is a snug coupe for cold weather; with the top down it is a swank open roadster for warm days. Conversion from open car to closed car is simple and easy. It is the car of the year for all the year!

Give your system this thorough cleansing

Modern life is unnatural in its demands on the system. The strain of business duties and social obligations -our present-day methods of eating, sleeping and working-all combine to clog the vital organs with toxins of fatigue and with deposits which the overworked system cannot eliminate.

The simple remedy for such conditions is a trip to the famous springs and baths at French Lick and West Baden. Here you may take a scientifically directed series of treatments; wash away the poisons and deposits in the system; refresh the skin by soothing, stimulating mineral baths; drop years of care and wear from your body and mind.

Now is the ideal time to slip away from the rigors of Chicago winter for the balmier days and pleasant social atmosphere of

The Penalty of Leadership

IN EVERY field of human endeavor, he that is first must perpetually live in the white light of publicity.

Whether the leadership be vested in a man or in a manufactured product, emulation and envy are ever at work.

In art, in literature, in music, in industry, the reward and the punish-ment are always the same.

The reward is widespread recognition; the punishment, herce denial and detraction.

When a man's work becomes a standard for the whole world, it also becomes a target for the shafts of the envious few.

If his work be merely mediocre, he will be left severely alone—if he achieves a masterpiece, it will set a million tongues a-wagging.

Jealousy does not protrude its forked tongue at the artist who produces a commonplace painting.

Whatsoever you write, or paint, or play, or sing, or build, no one will strive to surpass or to slander you, unless your work be stamped with the seal of genius.

Long, long, after a great work or a good work has been done, those who are dis-appointed or envious, continue to cry out that it cannot be done.

Spiteful little voices in the domain of art were raised against our own Whistler as a mountebank, long after the big

world had acclaimed him its greatest artistic genius.

Multitudes flocked to Bayreuth to worship at the musical shrine of Wagner, while the little group of those whom he had dethroned and displaced, argued angrily that he was no musician at all.

The little world continued to protest that Fulton could never build a steam-boat, while the big world flocked to the river banks to see his boat steam by.

The leader is assailed because he is a leader, and the effort to equal him is merely added proof of that leadership.

Failing to equal or to excel, the follower seeks to depreciate and to destroy—but only confirms once more the superiority of that which he strives to supplant.

There is nothing new in this. It is as old as the world and as old as the human passions—envy, fear, greed ambition, and the desire to surpass.

And it all avails nothing. If the leader truly leads, he remains—, the leader.

Master-poet, master-painter, master-workman, each in his turn is assailed, and each holds his laurels through the

The Great and the **Nearly Great**

When the king of beasts roars in the forest the lesser denizens of the wilds lapse into awed silence, but when the lion lies dead a noisy chorus breaks forth to voice judgments which discretion long suppressed.

Wilson and Bryan and Roosevelt and other great Americans who fearlessly faced each other, both in co-operation and in opposition, are now beyond the possibility of chastising those who would tear little holes in the mantle of fame honorably worn through lives of courageous, even if not always wise, effort to better the world.

Well, it's all most interesting, if only as a study in psychology of the nearly great who have basked for a little while in the brilliant sunshine of true greatness.

And so let's leave the great and the nearly great and return once more to the everyday affairs of life around us. And where do you intend to lunch this noon and to dine this evening?

True Stories of Service Rendered Motorists

More than 46,000 motorists are members of the Chicago Motor Club. You may wonder why such a great army of motorists take out membership in the club, and you must draw the conclusion that membership is a paying investment. In this series of advertisements, True Stories of Service Rendered Motorists, we shall let our members tell you why they support this organization. W. L. Coleman, 361 West Superior Street, says:

Too much cannot be said about the merits of this club. Membership is an obligation that every automobile owner owes to himself and the public at large. I, for one, am a staunch believer of the club, and as long as I have an automobile I shall continue to be a member.

"The club has done more for the motorists in the way of developing hard roads and safety devices at dangerous curves and crossings and in reducing accidents than any other organization in existence." "I have been repaid many times over for the annual membership fee. I have had three or four occasions to call on the club for mechanical first aid, and have

Oil-O-Matic is Outselling Any other oil burner by 2 to 1

in 83% of all cities over 25,000

and in most of the smaller towns it is practically the only oil burner used

Homeowners will invest \$35,000,000 this year alone in oilomatic heat. This represents more oil burners than any other concern has ever sold in its entire history! Homeowners want dependable, uniform heat. Read how Oil-O-Matic has provided it for seven years—and the special reason for your having Oil-O-Matic installed NOW!

Only in this way—can you get all the benefits of OIL HEAT

ABSOLUTE UNIFORMITY OF HEAT is vital because solid comfort and good health depend on it. Oil-O-Matic does not vary 2 degrees from the figure you set on the thermostat. It is so efficient that operating only about 9 hours out of 24 in subzero weather maintains the desired temperature. In the late spring and early fall, a few minutes night and morning are

Oilomattc heat is economical

Equally important is the COST OF OPERATION. Oil-O-Matic is listed as standard by the Underwriters' Laboratories to burn Fuel Oil. This grade of fuel costs less and contains more heat units per gallon than the lighter distillates to which most oil burners are restricted.

You have a wider range in choice of fuel because Oil-O-Matic operates efficiently on ANY GRADE of oil from Fuel Oil to Kerosene.

There's NO CONTINUOUS PILOT LIGHT to waste gas. You save there. The unusually slow speed motor requires less electric current than high speed motors commonly used in other domestic oil burners.

Forget you have a heating plant

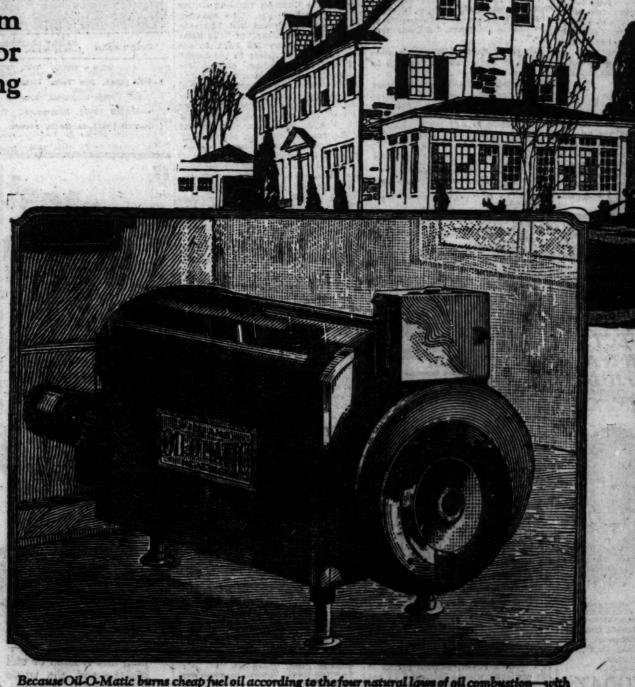

Oil-O-Matic gives you the UTMOST IN CONVENIENCE. You can forget you have a heating plant. You are free to come and go as you please. All the controls are electrical and fully automatic. They regulate the temperature day and night without your giving it a thought.

OIL-O-MATIC LIGHTENS HOUSE-WORK. Your walls, curtains and furnishings stay clean longer. There is no part inside the firebox to cause soot. All of the oil is converted into heat without fumes or smoke.

Exceptional service organization

Our organization is composed of graduates of the WILLIAMS INSTITUTE OF HEAT RESEARCH, the oldest and largest school of oil burning in the world.

We have the facilities and organization to properly study your individual heating problem and install a system that will give you a lifetime of heating satisfaction. Remember you can only get the oilomatic standard of heating service in Oil-O-Matic. THERE ARE NO SUCCESSFUL **IMITATIONS!**

Because Oil-O-Matic burns cheap fuel oil according to the four natural laws of oil of the part inside the firebox—it renders a service that makes it the world's biggest to

\$50 now--no more to pay until Sept. 1st--a year to pay the balance

Under our extended payment plan, you may have your Oil-O-Matic installed now for a small initial payment and take a whole year to pay the balance, beginning September First. What "reason" now for tolerating spasmodic heat? Without charge, one of our oilomaticians will examine your heating plant and give you an estimate of the complete cost of guaranteed automatic heating service.

Decide now to live in comfort

Oil-O-Matic heat is especially appreciated during the erratic spring months when coal fires are impossible to regulate. Before you put in another ton of coal, get all the facts on Oil-O-Matic heat. Our office is conveniently located. Call and see the Oil-O-Matic in operation. Let us give you the names of owners near you—then talk to any of them. Or phone us now to call. Seeks New Vault Record.

Hoff will wind up his indoor campaign here Saturday night at the Post Office Clerks' games with an attempt to eclipse the pole vault record for the tenth time. In nine trips he has raised the record from 13 feet to 13 feet 7 inches. Hoff is also slated to compete in the broad jump on Saturday. His opponents will be Dehart Hubbard, colored athlete, who holds the world's outdoor record, and William Dowding of Georgetown, whose indoor record was surpassed by Hoff last night. Norton will be the Norwegian's chief opponent in the pole vault.

Vincent Richards, Olympic champion and third ranking player in the United States, meets T. Harada, Japanese Lavis cup star, in the upper bracket, tomorrow, and Tilden meets S. Howard Voshell, Kew Gardens, New York, in the other singles match.

Richards volleyed his way to victory over his doubles partner, Francis T. Hunter of New York in straight sets, 6-3, 6-4, while Tilden was forced to extend himself to defeat Jerry Lang, New York, 6-3, 6-3. Harada put out F. C. Owens, Atlanta, in a hard fought match, 9-7, 6-3, and Voshell easily disposed of Jack McKay of Indianapolis, 6-1, 6-2.

Unless an upset occure, indications from the draw are that Richards and funter will face Tilden and Chapin in the finals of the doubles.

The rounder between "Doc" Snell of Tacoma, Wash., and Herbie Schaeffer to the south side is attracting a lot of interest. Both are hard hitters, who will trade punches at any time. Outstanding, \$75,417,420 (as of January I, 1926)

Mr. Henry L. Doherty, President of the Company summarizes his letter as follows:

Business Cities Service Company owns directly or through subsidiaries a majority of the common stock of each of more than sixty public utilities comprising a large and successful system of electric light and power, manufactured and natural gas, heat, water, ice and street railway companies, and of more than forty companies representing an important system of oil production, transportation, refining and market-

ing.

The public utility properties comprise a diversified group operating in eighteen states and the Dominion of Canada, serving a population of more than 3,000,000 in over 600 communities, including such important cities as Denver, Colo.; Kansas City, Joplin and St. Joseph, Mo.; Kansas City and Topeka, Kan.; Toledo and Sandusky, Ohio; Danbury, Conn.; and numerous others. These companies, having an installed capacity of over 600,000 horsepower, sold in 1924 more than 1,000,000,000 kilowatt hours of electric energy for light and power, and distributed in excess of 50,000,000,000 cubic feet of manufactured and natural gas.

The principal oil properties produce daily about 25,000

Cubic feet of manufactured and natural gas.

The principal oil properties produce daily about 25,000 barrels of crude oil, and the subsidiaries operate more than 900 miles of oil pipe lines and refineries having a total rated capacity of 31,500 barrels daily. The reserves of oil and gas lands are among the largest under any single management in the United States. They are locat in what is commonly known as the Mid-Continent in what is commonly known as the Mid-Continent in what is commonly known and Texas, and the nature gas business is conducted principally in Kansas, Oklahoma and Missouri.

The Detroit Hotel

First (Closed) Mortgage 61/2% Serial Gold Bonds

Dated March 1, 1926

Due Serially 1929-1941 Principal payable at the office of the Union Trust Company, Detroit, Trustee. Interest coupons payable March 1 and September 1 at the office of the Trustee or the Guaranty Trust Company, New York, or the Continental and Commercial National Bank, Chicago. Coupon bonds registerable as to principal, in interchangeable denominations: \$1,000 bonds and \$500 bonds in all maturities; \$100 bonds in last maturity only. Redeemable at 105 and interest on or before March 1, 1934, and thereafter at a reduction of one-half of one per cent for each succeeding year until the final maturity.

Interest payable without deduction for Nermal Pederal Income Tax not in excess of 2%, and certain state taxes refunded as herein set forth. The issue will be exempt from the existing personal property tax in Michigan.

TRUSTEE: UNION TRUST COMPANY, DETROIT, MICHIGAN

The following information is summarized from a letter from Mr. Edward A. Loveley,

SECURITY

These bonds will be the direct obligation of the Detroit Hotel Company and will be secured by a closed first mortgage on land, owned in fee, and a twenty-story hotel building with its furniture and equipment, to be erected at the northwest corner of Bagley Avenue and Cass Avenue, in the downtown business section of Detroit, Michigan. The hotel will be a fireproof, steel and concrete structure, and will contain 720 guest rooms and eleven ground floor retail shops.

The land has been appraised, in its present unimproved condition, by B. H. Manning, Vice President and Real Estate Officer, Union Trust Company, Detroit, at approximately \$1,400,000; and by Homer Warren, of Detroit, at \$1,689,900, on completion of the building.

The building, including furnishings and carrying charges, has been appraised by Thompson-Starrett Co., and by Albert Kahn, Inc., of Detroit; the lower of which appraisals is \$4,425,000.

The combined appraisal, taking the lower figure on land and building, is \$5,825,000, making this loan less than 56% of the appraised value of the mortgaged property.

EARNINGS

The net annual income from the hotel and retail shops, applicable to the payment of principal and interest, after deduction for operating expenses taxes, insurance, and an allowance for vacancies, is estimated at \$591,366, without reference to any earnings that may be obtained from the hotel restaurant. This figure is more than two and onehalf times the greatest annual interest charge on

OWNERSHIP AND MANAGEMENT

The principal stockholders of the Detroit Hotel Company are the Detroit Properties Corporation, Fisher & Company, Inc., and Leland Hotels, Inc. The Detroit Properties Corporation is an organization of Detroit business men, the active heads of which are Messrs. H. A. Stormfeltx and Edward A. Loveley. The stock of Leland Hotels, Inc., is owned by the Continental-Leland Corporation, which owns and operates a chain of hotels.

The hotel will be managed by the Detroit Hotel Company, of which Mr. Edward A. Loveley is President and Mr. Horace Leland Wiggins, Vice-President. Mr. Wiggins is also Managing Director of the Benjamin Franklin Hotel, Philadelphia.

The construction of the building will begin immediately; and a surety bond guaranteeing completion, free and clear of liens, has been written by the Maryland Casualty Company.

Mr. Abraham H. Neisner, President of the Company, summarizes from his letter as follows:

7% Cumulative Preferred Stock

HISTORY AND BUSI NESS: In March, 1911, the partnership of Neisner Bros. was formed to conduct a 5 Cents to 1 Dollar business at 190-194 East Main Street, Rochester, New York, the original cash investment being \$12,000. The year 1911 showed profits of \$14,591 from this one store. The following year this store showed sales of \$198,061 and profits of which was called Neisner Brothers, Inc., which is the present corporation.

TERRITORY SERVED: The 13 stores in operation at the end of 1925 are located in: (*) Rochester, N. Y.; Port Chester, N. Y.; Geneva, N. Y.; Buffalo, N. Y.; Worcester, Mass.; Chester, Pa.; Wilkes-Barre, Pa.; Camden, N. J.; Wilming-TON, DEL.; ABHTABULA, ONIO; LORAIN, ONIO; HAMTRAMCK, MICH.; FLINT, MICH.

All of the above stores showed a profit during 1925, notwithstanding the fact that 3 stores were new and were not in operation during the full 12 months period.

tion during the full 12 months period.

The Company has secured locations on valuable long term leases, and has arranged to open stores as soon as possession can be obtained, in the following cities: Columbus, Ohio; Mansfield, Ohio; Elyria, Ohio; Muskegon, Mich.; Pontiac, Mich.; Cary, Ind.; St. Paul, Minn.; and is planning an extension of its chain store system throughout the

The stores at Rochester, New York; Buffalo, New York, and Chester, Pennsylvania, are being necessarily enlarged and remodeled in order to take care of the increasing business at these points. It is the intention of the Company to continue this policy of expansion of business and opening of new stores in a conservative manner as long as sound business conditions

CHARACTER OF BUSINESS: The Company conducts the same general line of business as S. S. Kresge Co., F. W. Woolworth Co., McCrory Stores, F. & W. Grand 5-10-25c Stores and Metropolitan Chain Stores.

PURPOSE OF ISSUE: The proceeds derived from the sale of the Preferred Stock sold to you will remain in the busi-

ASSETS: The net tangible assets as shown by the certified Balance Sheet of December 31, 1925, after all depreciation and Federal taxes and after giving effect to this financing were \$1,843,884.22, or over \$184 per share for the Preferred Stocknow offered, net current assets being \$1,028,168.38, or over \$102 per share for the Preferred Stocknow

SALES AND EARNINGS: Sales and earnings for the past three years as shown by the certified audit were as follows:

Net profits for 1925 show approximately a 71/2% return on the volume of business done, which is considered quite remarkable in a chain of 13 stores.

The increase in business in 1925 over 1924 amounted to \$788,288.28, and the sales for January, 1926, have shown an increase of 3412% over the same month of 1925. MANAGEMENT: The Management of the Company will remain in the same hands as heretofore.

Dated September 1, 1925

Interest payable semi-annually March 1 and September 1, at Pirst Trust & Savings Bank, Chicago, Trustee, without deduction for withheld Federal Income Tax not exceeding 2%. Refund made for Pennsylvania, Massachusetts, tions of \$1,000, \$500 and \$100 registerable as to principal. Redeemable in whole or in part on any interest date on sixty days' notice at 105 on or before September 30, 1930; thereafter at ½ of 1% less for each succeeding year or part thereof to and including September 30, 1936; thereafter at 102 and accrued interest.

The following information is summarized from the letter of Fred W. Seymour, President of the Company:

PROPERTY: Federated Utilities, Incorporated, supplies, through subsidiary companies, artificial gas service to the following communities: Owosso, Corunna, Marshall, Alpena, Sault Ste. Marie, Plymouth, Northville, Wayne, Alma, Ithaca, St. Louis, Breckenridge, Mt. Clemens, Halfway, Warren, St. Clair Shores, Roseville, Frazer and Centerline, Michigan; Palm Beach, West Palm Beach and Lake Worth, Florida; Waycross, Georgia; Huntsville, Alabama and Washington, Indiana. In addition thereto, the Federated Utilities, Incorporated, controls the artificial gas properties serving Griffin, Georgia and Lawrenceburg and Greendale, Indiana, which properties have not yet been qualified as subsidiaries as defined in the indenture. The total population served by the Company's subsidiaries is in excess of 200,000.

SECURITY: These bonds are secured as required by the indenture by pledge with the Trustee of the entire first mortgage bond issues of the subsidiary companies which must at least equal the face value of bonds of this issue. They are further secured by pledge with the Trustee of the entire

common stock issues of such subsidiaries excepting only directors' qualifying shares.

Additional subsidiary bonds are issuable for not to exceed 75% of the depreciated physical value of improvements or acquisitions with the requirement that net earnings in the preceding twelve months shall be at least twice interest charges on such bonds issued and to be outstanding.

bonds issued and to be outstanding. EARNINGS: Consolidated net earnings of the Company and subsidiaries for the year 1925 available for interest, Federal income taxes and depreciation were \$291,018.19, or 2.69 times the annual interest requirements on the \$1,800,000 of these bonds to be outstanding.

APPRAISAL VALUE OF PROPERTIES: Appraisals of the subsidiary properties have been made by Messrs. Hagenah & Erickson of Chicago. The combined properties under this indenture had a conservative present physical value as of December 31, 1925, after making liberal deductions for depreciation, of \$3,467,276 or nearly two times the \$1,800,000 of bonds outstanding.

The following is taken from information submitted to us by the Bank: The Dallas Joint Stock Land Bank serves the State of Texas, which ranks first among the States in agricultural pursuits. Texas alone in 1925 produced 8.3% of the crop values of the United States, with only approximately one-fourth of its till-

able land in cultivation. These Bonds are the direct obligation of The Dallas Joint Stock Land Bank. As of March 10, 1926, there were outstanding including this issue total Bonds issued by this Bank to the amount of \$29,947,000. Security for these (including appraised value of farms covered by pledged First Mortgages) amounted to approximately \$81,025,811, representing 270% of Bonds outstanding.

First Mortgage 61/2% Serial Gold Bonds Dated April 1, 1926. \$100, \$500 and \$1,000 Coupon Bonds. Maturing Semi-Annually 21/2 to 12 Years

Principal and semi-annual interest (October 1 and April 1) payable at offices of Greenebaum Sons Investment Company, without deduction for Federal Normal Income Tax up to 2%, and any State Taxes up to Five Mills of Principal Amount.

Principal and Interest Payments Guaranteed by Individual Considered Thoroughly Responsible

Security comprises Closed First Mortgage on valuable land, 225 x 150 feet, owned in feet two connected 16-story and basement residential apartment hotel buildings of fireproof construction, located in the choicest residential district of St. Louis, the Forest Park section; equipment, furnishings and earnings.

Independent expert appraisal of the property, when completed, places the total value at approximately \$3,000,000; large serial payments of principal semi-annually increase the margin of security. Net income from property conservatively estimated at \$272,840, which is more than double the greatest yearly interest charges on the entire Bond Issue.

Payments of principal and interest to investors are personally guaranteed by Samuel Koplar, who owns a large amount of other valuable real estate, and whose business experience has been of a wide and most substantial character.

Safeguarded Bonds

Monthly Deposits required in advance with Greenebaum Sons Bank and Trust Company, Chicago Completion of the building is guaranteed by Greenebaum Sons Investment Company to Bondholders of this Issue. WALL STREET NOTES

NEW YORK, March 17.—(A)—Trading in today's curb market was extremely dull with most of the active issues losing ground. Vacuum Oil dropped 1½ points, but most of the other so-called Standard Oil shares showed only nominal recessions. Heavy liquidation of Gibson Oil, which sold off more than a point, featured the independent group. South American oils yielded fractionally.

Baking and merchandising issues yielded to a bear drive. Sears-Roebuck [new] dropped 2% to 49½, a new low record. Continental Baking A and B dropped 1½ and 1 point, respectively, and the General Baking issues showed fractional recessions. Metropolitan Chain Stores toppled 4 points to a new low at 35.

Electric refrigeration issues were heavy.
Servel Corporation earged 1½ points to 25
on reports of new financing. Electrical Retrisgration fell back 1% to 65%. Lanw Comoany of Florida touched a new low at 22½.
Interest in the public utilities was at low
ebb. Net declines of a point or so were
recorded by Electric Bond and Share, United
Gas Improvement and United Light and
Power.

LONDON WOOL AUCTION.

LONDON, March 17.—(P)—The offerings at the wool auctions today amounted to 10.669 bales. Trading was animated. Fine greasy meriaos ruled in seller's favor. American buyers, purchased fine and medium greasy crossbreds.

FROM the standpoint of actual earnings the rails are far cheaper than the industrials. There has been no falling off in these earnings. There are definite possibilities of mergers which might sharply increase values of certain shares.

These things are clear. Yet there are other possibilities not so apparent, which are apt to be overlooked.

The whole matter is clearly and tersely analyzed in Thursday's issue of Standard Daily Trade Service. Send 50 cents for Report AC46. The Adopted Wife

SYNOPSIS.

This is left an orphan by the death of her father, who bequeaths her to the arity of Hilary France, one of his few friends. Hilary's sister, Laura Evaraham, of his charge by placing Cella in a French convent, and when she is eighteen tate her home to Hee. Two years later Laura dies and Hilary is greatly dists what to do about Cella. A young Russian sculptor proposes to her, but she offer, and Hilary, in desperation, proposes to her himself, in order that she is his house with propriety. Cella is happy in the arrangement until she overagously about heraelf and her "white marriage." She learns for the first time sther had left her penniless. Ethery goes to Europe and Cella decides to get her. She applies to Abe Sieburg of the Sieburg theater, who agrees to take her on diving stunt. She gives up her job the day before Hilary is due back in the

Exhibit of Bourdelle Sculpture Opens at Art Institute Today

There opens this afternoon in the east wing galleries of the Art institute one of the most vigorous exhibits of scuipture that has been shown here in some time. It is the work of a Frenchman, Antoine Bourdelle. It is strong, alive, vital, and essentially thoughtful. No careless mood turned out that fluting Pan with his goats, nor the splendid stricken ceritaur.

The Chicago Camera club opens its arimual exhibit in the Art institute also this afternoon. The prints strike a high average this year. One stands out particularly for its delicate and haunting charm. It is like a soft pencil sketch or a silver point. It is called "Winter" by R. L. Farrington.

"The Herons" by Richardson is a splendid piece of photography, as are also a marvelous panel of soaring sea fulls and "The Dragon Fly" by L. B. Mayo, this last savoring a little of Japanese exquisiteness.

Brown said his studies showed widows were not as good workers as married women and "old maids."

They think of what might have been and their minds are usually unsettled and disturbed.

Blondes and brunettes are equally efficient. Red headed women are great workers as long as everything is running smoothly, but they are hard to managa.

Women workers should not be too stout, Brown found. Flesh is likely to indicate lack of mental and physical activity.

Buck Jones Pauses Here

on His Way to England

(Picture on back page.)

Buck Jones, the cowboy of the movies, and Mrs. Jones, paused in Chicago for a few hours yesterday anroute from Hollywood to England.

Mr. Jones opined he has ridden about every kind of horse there is but desires to see the brand that is constant, by falling with the prince of Wales. He thinks he may be able to do some thing about it.

That was a mean trick —to report anything like that. It was very unfair, unappreciative.

Quiet Day in Dublin.

[Coveright: 1926: By The Chicago Tribune.]

DUBLIN, March 17.—The celebration today of Ireland's national festivate was the most sober on record, due to the stringent regulations of the new liquor legislation. A feature in Dublin was a parade of the national army of 2,500, accompanied by army bands. The men looked exceedingly smart, a great advance over their last appearance in mass formation. They carried rifies with fixed bayonets gleaming in the sun. The officers carried unsheathed swords. At Croker park sports were held and a memorial was unveiled. The weather was beautiful and thousands of persons /visited the city from the country.

WOMAN'S OR MISS' DRESS. This dressy design is made with a round neck and closes on the left shoulder. The drop shoulders form short sleeves, and one piece sections may be added if full length sleeves are preferred. A two piece flared skirt is attached to the waist in straight or scalloped outline.

The pattern, 2671, comes in sizes 14 and 16 years, and 36, 38, and 40 inches bust measure. Size 36 requires 3% yards of 36 inch material. The embroidery design, 720, costs 15 cents extra.

ROSEHILL MAUSOLEUM

Time Cannot Erase

One's Mark at Rosehill

The names that today at Rosehill mark the last resting places of those who lie silent and sleeping there, shall meet the eyes of incredibly distant generations. It is an awesome thought, yet one filled with consolation, that this should be possible. It may well happen that Rosehill-and its sacred content shall alone, of all things about us today, wit-

ness the last sunset the earth shall know.

Single crypts in the new addition to Rosehill Mau-

soleum may be had for as little as \$450; these, as well as the most costly, are doubly assured of perpetual, watchful care by a trust fund and the Mausoleum Building Special Reserve Fund. Inquiries,

by mail or in person, will receive prompt and

courteous attention, with no thought of obligation.

WANTED-MALD HELP.

I KNOW

that many hard working, underpaid men who would like to get away from "a job" and get into better paying work dare not make the "breakaway" step because they are forced by the immediate needs of a family or other financial reasons to keep their nose to the grindstone.

To a few such men I can offer an opportunity to engage in spare time work (day or eve) which will enable you to learn to sell, earn extra money, and develop your personality and initiative, and knowledge of our commodity, so that in a month or so we can give you steady employment, where as good income is assured; where you are your own boss, and you-not some boss-get the credit for your efforts.

Besides getting a PRACTICAL, not theoretical, training that will fit you for a life vocation, you can count on making extra money in that spare time. For no one ever worked many spare hours with us without making SOME money. Many of those now in our steady employ started through this same method. If you are interested call at the 4th floor, 860 North Michigan-av., Thursday evening, March 18, at 8:00 o'clock.

Actions speak louder than words. Don't talk yourself into waiting for a "better time." Act now.

AFTER ALL all this ad can do is bring you and me together to talk things over, for if I used a whole column of space to tell why I believe my proposition the best of any offered you wouldn't decide to work with me until you had made a complete, first hand investigation. I will spend several days interviewing applicants as I must have five more merition my staff immediately, I'll do the talking, they'll do the thinking and later perhaps they'll be thanking me for presenting such an opportunity, will you be one of them?
